1. Between the dates of June 15th to and including June 22nd 2010, Byron SONNE did without lawful authority, intending to provoke a state of fear in the general public and to impede the administration of criminal justice by threatening to destroy the property or by causing damage to the property of a justice system participant, contrary to section 423.1(a)(b) of the Criminal code of Canada
2. Between the dates of June 15th to and including June 22nd 2010, Byron SONNE did without lawful authority, intending to provoke a state of fear in the general public and to impede the administration of criminal justice by watching the justice system participant where they are working carrying on business contrary to section 423.1(a)(b) of the Criminal Code of Canada
3. Between the dates of June 15th to and including June 22nd 2010, Byron SONNE did unlawfully commit mischief by obstructing, interrupting and interfering with the lawful use or operation of property contrary to section 430(1)(d) of the Criminal Code of Canada.
4. Any conspiracy related to the above named offences contrary to section 465(1)(c) of the Criminal Code of Canada.

APPENDIX 'C'

INTRODUCTION OF INFORMANT:

I, Chris FRENCH #7693, am a Detective Constable for the Toronto Police Service assigned to the Organized Crime Enforcement - Biker Enforcement Unit. I am currently seconded to the G8/G20 Summits Integrated Security Unit - Joint Intelligence Group - Criminal Investigative team. My duties include the enforcement of the Criminal Code.

I have over 10 years experience and training in the investigation of criminal code offences. I have been the affiant of several Controlled Drugs and Substances Act and Criminal Code search warrants. I have successfully completed the drug investigators, proceeds of crime, plainclothes and the Toronto Police undercover foundations courses and also attended the advanced search warrant and drug investigators seminars. I have attended and successfully completed the Toronto Police Service surveillance course, the C-24 training and I am authorized by the Toronto Police Service to handle agents and level 2 sources which includes youths, organized crime and matters of national security.

I have personal knowledge of the facts here and after deposed to, except where same are stated to be on information and belief. During my investigations into this matter, I have read Police reports, occurrences, and spoken personally to the police officers, herein named in this application involved in this matter. I have made further inquiries through Police computer data banks in relation to the investigation. My investigation and those I oversaw or caused to be done, are herein described in this, my information.

I believe that all the information contained in this, my Affidavit, is true.

OVERVIEW:

This investigation surrounds Byron Leon SONNE who I believe is currently in possession of a sound canon, a projectile launcher and other equipment and plans designed to cause damage to and destroy public property, putting the public, the police and international delegates at risk. I believe due to the actions and information gathered on Byron SONNE that he plans on using this homemade sound canon in the days leading up to and including the G8/G20 Summit events and to also damage/destroy the telecommunications systems of officers while engaged in the lawful execution of their duties.

Furthermore I believe that Byron SONNE has specific equipment and plans that are designed to damage and destroy fence lines, cameras and video stations that have been put in place to protect the public, the police and international delegates.

RELATED OFFENCES:

1. Intimidation of a Justice System Participant pursuant to section 423.1 (1)(a)(b)
2. Intimidation of a Justice System Participant pursuant to section 423.1 (1)(a)(b)
3. Mischief 430 (1)(d)
4. Any Conspiracy to commit the offences listed in paragraph 1, 2, and 3 pursuant to section 465(1)(C)

GLOSSARY:

The following abbreviations, with their definitions, may be used by the affiant. These are consistent with their use in the Toronto Police Service:

- **C.C. :** Criminal Code (of Canada)
- **CPIC : Canada Police Information Centre**- a computer data base which is managed by the Royal Canadian Mounted Police (R.C.M.P.). Information can be added by contributing police agencies. It contains information on a person's criminal record, criminal charges, weapons prohibitions, firearms registration, motor vehicle registration and other information which may be of concern to law enforcement officers.
- **Persons Investigated Card/TPS 208 (hereinafter referred to as a "208")** 208 is a hard copy file, completed by field officers listing information including, name address, date of birth, descriptors, vehicles, associates and including date, time and location of the investigation by a member of the Toronto Police Service.

- **Canadian Firearms Registry On-line (hereinafter referred to as CFRO)** CFRO is an electronic database that contains information which is available to police officers via CPIC to protect public safety and to enforce the weapons provisions found in Part III of the Criminal Code.
- Section 2 of the Criminal Code of Canada defines a “**Weapon**” as: any thing used, designed to be used or intended for use in causing death or injury to any person, or, for the purposes of threatening or intimidating any person and without restricting the generality of the foregoing, includes a firearm.

Offence Definitions

423.1 (1) CC – No person shall, without lawful authority, engage in conduct referred to in subsection (2) with the intent to provoke a state of fear in;

(b) a Justice System Participant in order to impede him or her in **the performance of his or her duties**

AND that the conduct referred to in subsection (1) consists of;

(a) using violence against a justice system participant **or damage to the property of any of those person(s)**

(d) besetting **or watching** the place where a justice system participant resides, works, carries on business or happens to be

430(1) Every one commits Mischief who wilfully

- (a) destroys or damages property
- (b) renders property dangerous, useless, inoperative or ineffective
- (c) obstructs, interrupts or interferes with the lawful use, enjoyment or operation of property
- (d) obstructs, interrupts or interferes with any person in the lawful use, enjoyment or operation of property

Definitions pertaining to offence

Justice System Participant

Means a peace officer within the meaning of paragraphs (b), (c), (d) (e) and (g)of the definition of a peace office.

Peace Officer

A peace officer includes;

(c) a police officer, police constable, bailiff, constable or other person employed for the preservation and maintenance of the public peace or for the service or execution of civil process.

GROUND TO BELIEVE THE NAMED OFFENCES ARE BEING COMMITTED:

INFORMATION

As a result of advanced security measures taken toward the upcoming activities of the G8 meetings this June in Huntsville and the G20 meetings in Toronto, the RCMP, OPP and Toronto Police Service among other police services have become involved in the investigation and intelligence gathering of various security threats.

1. On Tuesday June 15th 2010 two police constables from Toronto Police Service 52 Division, Police Constable Michael WONG #6826 and his escort Police Constable Coffin #3760 were dispatched to attend a radio call in relation to a suspicious male video taping the Metro Toronto Convention Center and the CN tower. Officer WONG and COFFIN investigated this male and made entries in their memorandum books and a contact card. I subsequently viewed a copy of their notes and a TPS 208 contact card authored by the officers and learned the following information;
 - a. The officers investigated the suspicious male who was being followed by CN Tower security staff taping the Metro Toronto Convention Center and the CN tower. The officers were immediately told by the

suspicious male that he would not identify himself unless he was under arrest under the "Terrorist Act of the Criminal Code".

- a. The officers informed him they were investigating him for "J walking", the male then identified himself with a valid Ontario drivers licence as; Byron Leon SONNE, born on August 8th 1972, of 58 Elderwood Drive, Toronto. Byron SONNE produced a piece of paper with "ARREST HOTLINE" and "416 273 6761" on it along with a section of the Criminal Code presumed by the officers to relate to Terrorism.
 - c. As a result of the suspicious behaviour exhibited by Byron Leon SONNE officers WONG and COFFIN forwarded the information to the Toronto Police Service Intelligence Services. As a result a surveillance team was deployed to monitor the daily activities of Mr Byron Leon SONNE.
2. I reviewed a copy of the central notes for Wednesday June 16th 2010 authored by Detective Constable Ravi MANOHARAN #9398. Detective MANOHARAN is a member of the Toronto Police Service and is temporarily seconded to the Intelligence Division for the G8/G20 Summits. I have learned the following;
- a. On Wednesday June 16th 2010 the surveillance team commenced observations of Byron SONNE at his residence which is located at 58 Elderwood Drive, Toronto. During the surveillance Byron SONNE was observed but did not leave his residence. The surveillance team also identified a black 2007 Toyota RAV4 vehicle, bearing Ontario licence plate 067 WTZ. Ministry of Transportation records indicate that the vehicle is registered to Kristene PETERSON of 58 Elderwood Drive, Toronto. While SONNE was at home he typed several twitters indicating he is communicating through devices in his home. [refer to Paragraph 21 (j)(k)(l)(m)(n)(o) of this affidavit for details].
 - b. On Thursday June 17th 2010 a surveillance team was directed to commence surveillance on Byron SONNE. SONNE was observed by the surveillance team leaving his residence at 12:25pm and walking to 124 Eglinton Avenue West. SONNE then walked to the Eglinton Toronto Transit Commission (TTC) station where he was misplaced at 12:56pm.

3. With the G8/G20 2010 Summit meetings taking place in the City of Toronto the Integrated Security Unit Joint Intelligence Group has taken a number of pre-cautionary security measures to ensure the safety of everyone involved. One of the safety pre-cautions is a team of analysts conducting open source checks in relation to threats at the events surrounding the G8/G20.
4. Louise KNIGHT is a Canada Border Services Agency Intelligence Analyst assigned to the Analytical Team - Joint Intelligence Group of the Integrated Security Unit. While Louise KNIGHT was conducting these open source checks she located a Twitter account (<http://twitter.com/torontogoaat> "blsonne") and located numerous pieces of information which resulted in her creating a report Document ID: 13203_001_LMK. As a result on June 17th 2010 I received information contained in the G8/G20 Summits 2010 Integrated Security Unit Joint Intelligence Group Intelligence bulletin document 13203_001_LMK regarding the Twitter account (<http://twitter.com/torontogoaat> "blsonne").
5. Twitter is an online information sharing website that allows its users to post information for other people to observe. It is freely available on the internet and can be accessed from computers and cell phones. People sign up and create accounts with associates whom they can follow. According to <http://twitter.com/about> "Twitter is a real-time information network powered by people all around the world that lets you share and discover what's happening now."
6. While Louise KNIGHT was viewing this "torontogoaat" twitter account there were a number of references to the G20. The author of the account made a request for someone to "post a picture of the pass that will get them behind the line". I believe this statement directly relates to the secured areas of the G8/G20 fence line that has been developed to maximize the safety of all participants.
7. The author of "torontogoaat" also spoke of uploading "pics of surveillance cameras". On the twitter account of "torontogoaat" there is an internet link to another website http://www.flickr.com/photos/toronto_goaat/. On this website are 240 images in 'toronto_goaat's photostream' account. In this account are six (6) photos, all dated Jun 16 2010, of the new security cameras that have been installed specifically for the G8/G20 Summit meetings. These photos are referenced as; IMG_3023, IMG_3039, IMG_3017, IMG_2985,

IMG_3040, IMG_3001. These photos are believed to be for intelligence gathering because of the specific nature and focus of the photos. *[See attached Appendix D]*

8. Flickr is an online photo management sharing application that allows users to post their photos and videos to other users around the world. Other photos contained in the http://www.flickr.com/photos/toronto_goa/ account are four (4), all dated Jun 16 2010, of "The view around Queen's Park", "American Embassy rear #2" and American Embassy rear #1. These are photos of exactly what they are titled and are also believed to be for intelligence purposes.
9. In addition to the location and camera photos there is a photo of what appears to be a home made improvised weapon that is capable of firing objects dated March 1, 2010. This photo appears to be made of white plastic piping along with a red hose similar to an air compressor hose. Although the affiant can not comment on the actual operations or composition of the improvised weapon it appears to be in working order.
10. Other photos on this account IMG_2835 and IMG_2834 are photos of what appears to be a trigger mechanism and a piston. Both these items appear to be attached to the improvised weapon as seen in the previous picture.
11. Three photos were added to the account on May 20, 2010 are believed to be projectiles that could be fired from this improvised weapon. The photos are of steel or metal objects that are sharp in nature and another is a bolt with a nut thread onto it. Based on SONNE's twitter account postings, I am concerned with these photos. I believe that the improvised launcher is capable of firing these projectiles. If these objects were to be fired out of this improvised weapon they would be capable of causing grievous bodily harm or even possibly death.
12. The last photo obtained IMG_2892 is what appears to be two wooden boards that have sustained what appears to be the results of testing this improvised launcher firing an unknown projectile. One board is blue in colour with a large hole in the middle and has the following writing along the top of the board "60mm Ikea candle, front -large bore barrel no rifling, -distance 4m". The other brown coloured board has the following writing along the top of the board "Shallot, front, -small bore barrel, -distance 4m, -rifled". The

statements I believe are in reference to the item fired, the size of the barrel and the distance of 4 meters.

These pictures corroborate in my belief that this is a weapon capable of firing projectiles and that those projectiles could cause grievous bodily harm or even death.

13. Two pictures Byron SONNE has posted are taken of police officers assigned to their security post at the American Embassy. One photo is a picture of a group of police officers standing in a group and is referenced as "Stationary Bacon". The next photo is of several police officers assigned to bicycle patrol and is referenced as "Bacon on wheels". Both of the descriptors of "bacon" are a sign of disrespect towards law enforcement.

Mr. SONNE has made every attempt and succeeded in several instances in taking photographs of peace officers at their divisions and at their assigned posts. He has then placed pictures of these officers at their workplace on a website known as "Flickr" which can be literally viewed by anyone. In addition as per his twitter account he is attempting to obtain security passes and use tactics to break through security lines. These tactics are designed in my belief to gain access to restricted areas enabling him and those working with him to break into secure areas to intimidate police, the public and international delegates by putting them in harms way.

There is no other lawful reason Mr. SONNE would have to release photos of police, post weapons and details on how to get through secure fence lines using instruments to destroy the fences unless for an unlawful purpose. I can think of no lawful purpose to disable communications and destroy video surveillance unless to disguise yourself from committing criminal offences and disable police from being able to communicate to get the necessary assistance they may require, putting both them and the public in imminent danger.

14. Another link from the 'torontogoa' Twitter account leads to a Youtube video site: <http://www.youtube.com/user/torontogoa>. There are three (3) videos of the G20 fence captured by these videos.
15. There was a comment posted from "torontogoa" on June 15 2010 stating "A tour of the G20 Fence line, 15-Jun-10. This one got me stopped and questioned by the cops. All footage of the Financial District". These videos

along with the comments are indicators that Byron SONNE is gathering intelligence and shows knowledge that what he is doing this in an attempt to intimidate and provoke law enforcement officers.

16. I reviewed the contents of the follow-up report Document ID: 13203_002_JB also dated June 17th 2010 authored by Julie BAN. Julie BAN is an Intelligence Analyst assigned to the Analytical Team - Joint Intelligence Group of the Integrated Security Unit It contains the following information;
 - a. This document identifies the suspect of the 'torontogoat' Twitter account is Byron Leon SONNE, born on August 8th 1972. Surveillance has confirmed that Bryon SONNE lives at 58 Elderwood Drive, Toronto with a phone number 416 322-5942.
17. On June 18th 2010 I conducted several checks on the Toronto Police Service computer databanks including Canada Police Information Center (CPIC) and the Canadian Firearms Registry Online (CFRO). Byron SONNE is not before the courts on any charges nor does he have a criminal record. Byron Leon SONNE has a valid Ontario drivers licence (S6419-10467-20808) registered to 58 Elderwood Drive, Toronto. Byron SONNE has a firearms licence to possess ~~L~~ *JF*
18. On Friday June 18th 2010, a surveillance team comprised of Detective MAADANIAN #5168, Detective SUKUMARAN #7089, Detective Constable MOSQUITE #3663, Detective Constable DUNCAN #7580, Detective Constable LITTLE #89887, Detective Constable MANOHARAN #9398, Detective Constable SHETTY #5206 and Detective Constable MAILER #99628 commenced observations of Byron SONNE.

I subsequently viewed a copy of a report prepared by Detective Constable LITTLE central notes made in relation to the surveillance conducted and learned the following.

- a. At 1:30pm Byron SONNE was observed leaving his home driving the black TOYOTA RAV4 bearing Ontario licence 067 WTZ by Detective Constable DUNCAN. The surveillance crew followed SONNE to Tuckers Pottery Supplies located at 15 Pearce Street in Richmond Hill where Detective Constable SHEETY observed SONNE entering the store. SONNE was then observed exiting the

- store by Detective Constable LITTLE with a clear plastic bag with unknown products in the bag and entering his vehicle. An unknown female exited the store and approached SONNE's vehicle and handed SONNE several pieces of 8 ½" x 11" paper.
- b. SONNE was then followed to 1140 Sheppard Avenue West where he was observed by Detective SUKUMURAN entering unit 9, ET Plastic World. Detective Constable LITTLE observed SONNE exit a short time later with a plastic bag in hand. SONNE was observed driving back home where he entered his residence. Surveillance was discontinued at 4:30pm.
19. The locations Byron SONNE attended on Friday June 18th 2010 are concerning to the affiant because they are stores that carry some of the necessary supplies, in the affiants opinion, to create a forged security pass. This forged security pass would then be used to gain unauthorized access to the security zone at the G20 Summits in downtown Toronto. [Refer to twitter account transmissions in regards to SONNE wanting to make fake security passes paragraph 21 (p) and (q)]. The affiant believes there is no other reason to make a forged security pass to gain access to the security zone unless there is an unlawful purpose formed on behalf of the beholder.
20. On Sunday June 20th 2010 a surveillance team comprised of Detective MAADANIAN #5168, Detective Constable MOSQUITE #3663, Detective Constable Duncan #7580, Detective Constable LITTLE #89887, Detective Constable SEREMETKOVSKI #8632, Detective Constable SMITH #99815 and Detective Constable SHETTY #5206 commenced observations of Byron SONNE at 58 Elderwood Drive, Toronto. I have reviewed a report prepared by this team and learned the following;
- a. At 10:00am he was observed leaving his residence by Detective Constable MOSQUITE and was followed to the Eglinton TTC station and misplaced. Detective Constable SEREMETKOVSKI then located SONNE taking photos of the CN Tower in the area of Rees Street and Lakeshore Boulevard. SONNE was misplaced by officers and was re-located a few hours later returning home to 58 Elderwood Drive.
21. On Monday the 21st, 2010 I viewed the Twitter account of Mr SONNE, <http://twitter.com/torontogoa>, and observed the following entries. The

following Twitters were sent by Byron SONNE. They are noted below and appear exactly as typed by Mr. SONNE;

- a. some people must be being stupid; I've never been arrested or forced to delete pictures of cops and I've been stopped 2 times now
#g20report about 6 hours ago
- b. Another security camera found pointed at 1266 Queen Convergence space from health cntr. across st. Practice good security culture
#g20report 11:12 AM Jun 20
- c. stopped and questioned by the cops again for taking pictures, but this time of the officers, had to let me go :) #g20report 10:18 AM Jun 20th via TwitterPod
- d. see what I mean? tiny holes #g20report 1:44 PM Jun 19th via TwitterPod (See attached appendix E for picture of fence)
- e. don't forget design flaw in most G20 fence: holes are small enough to thread big bolts in for extra leverage and grip

[The last two comments are concerning because they are detailing how to defeat the security fence which in itself is a security measure employed by law enforcement]

- f. remember, 151 Front St is the most important telecommunications hub in Canada.
[This address is home to a telecommunications hub].
- g. not to mention they'd help people get a good grip on the fence for bringing it down #g20report 11:37 PM Jun 18th via TwitterPod
[Again another statement pointing out the security fence can be defeated and placing the ideas of bringing the fence down.]
- h. Could probably be fabricated cheap and quickly out of bolts from HomeDepot or Rona or something too #g20report 11:37 PM Jun 18th via TwitterPod

[This comment is suggestive in nature and illustrates where to obtain the tools required to defeat this portion of the security fence]

- i. these would be handy for scaling G20 fences; the ones I have at home would fit the smaller grid fence <http://tinyurl.com/36hs6vp> #g20report 11:35 PM Jun 18th via TwitterPod

[Again, indicating that he has instruments at home to assist him in bringing down the security fence]

- j. some cameras may be easy to interfere with, check it http://farm5.static.flickr.com/4016/4706905983_bab574376f_b.jpg #g20report 10:03 PM Jun 16th via TwitterPod

[This comment is directly advising his intentions to interfering with the G8/G20 security cameras]

- k. now we have a record of most of the surveillance cameras just in case the Gestapo forgot to take them down #g20report 10:01 PM Jun 16th via TwitterPod
- l. almost every police-y looking camera I could find between Queen and Front from Spadina to Yonge + American Embassy front + back #g20report 9:56 PM Jun 16th via TwitterPod

[This comment details the time and effort put into this operation of interference with the security measures employed by law enforcement during the G8/G20 Summits]

- m. uploaded a shit ton of pics of surveillance cameras in the downtown core today http://www.flickr.com/photos/toronto_goa/ #g20report 9:55 PM Jun 16th via TwitterPod
- n. Have noticed no decrease in regular police radio traffic due to use of new encrypted radio system #g20report 1:24 PM Jun 16th via TwitterPod
- o. listening to my scanner, cops are using a lot more unmarked cars around the downtown core than normal #g20report 1:01 PM Jun 16th via TwitterPod

[These last two comments states how he has been monitoring police radio transmissions and demonstrates he has knowledge in the area of radio telecommunications]

- p. obviously edit out your details so you don't get in trouble #g20report
11:25 PM Jun 15th via TwitterPod

[Indicating criminal intent]

- q. Could someone who is a resident or works in the G20 zone post a picture of the pass that will get them behind the line? #g20report
11:24 PM Jun 15th via TwitterPod

[This is a step towards forging a security pass to unlawfully enter the secured zone for unlawful purposes]

- r. New videos of G20 Fence line finished uploading
http://www.youtube.com/user/torontogoat these ones got me some police trouble #g20report 10:08 PM Jun 15th via TwitterPod
- s. New fence line videos coming later today #g20report 3:56 PM Jun 15th via TwitterPod
- t. cops were polite enough, but they threatened me with an HTA violation for walking in the road to videotape, beware of this trick #g20report 3:56 PM Jun 15th via TwitterPod
- u. videos of the fence line in it's current state, will update as it progresses
#g20report 6:44 PM Jun 12th via TwitterPod
- v. PDF map of G20 fence line http://www.g8-g20isu.ca/g20/resources/10-06-11-map.pdf #g20 12:46 PM Jun 12th via TwitterPod
- w. will do more walking and videotaping as the fenceline progresses 1:51 AM Jun 12th via TwitterPod

- x. whoops, well I suppose I should get back in the swing of this twitter thing, G8/G20 coming up, should be fun 12:00 AM May 9th via TwitterPod
 - y. mycurial dude easy on the tweets 9:41 PM Apr 17th via TwitterPod
 - z. There is nothing so wonderful as being home! Never underrate Toronto - it rules :) 9:49 AM May 11th, 2009 via TwitterPod
 - aa. Still... fuck the tamils, get off my fuckin' streets
- [This in my opinion shows SONNE's distaste for people of an ethnic origin].
22. I also checked the Flickr photo account of Byron SONNE and observed two hundred and sixty (260) photographs. One of these photos was described as a "waveguide". From the dates of the photos it appears that SONNE began developing the waveguide around February 28th 2009. It appears SONNE had completed the waveguide by March 28th 2009. An open source check on the internet was conducted and I learned the following information. According <http://en.wikipedia.org/wiki/Waveguide> a waveguide is a structure which guides waves, such as electromagnetic waves or sound waves. There are different types of waveguide for each type of wave. The original and most common meaning is a hollow metal pipe used for this purpose. Waves in open space propagate in all directions, as spherical waves. In this way they lose their power proportionally to the square of the distance. Waves are confined inside the waveguide due to the total reflection from the waveguide wall.

23. Another open source check on <http://www.topsight.net/article.php/20021115142933894> revealed that attacks can be carried out with these waveguides. The author of www.svbxlabs.com was able to design and implement a HERF (High energy radio frequency) weapon which he demonstrates with pictures and video as he destroys a video camera at a proximity of 5 meters. The author explains and photo graphs all his experiments and shows that even a idiot can make ^{the} their own herf weapon by simply taking apart a microwave, and fitting a wave guide and cone around the magnetron. According to data and

L 8

applications on the authors site, you can transform an 800 watt microwave into a herf gun that would be effective at upto 50 feet.

24. On Monday June 21st 2010 a surveillance team comprised of members of the Professional Standards unit commenced observations of Byron SONNE at 58 Elderwood Drive in the City of Toronto. At 11:55am Byron SONNE was observed leaving his residence in the Toyota Rav4. SONNE was followed to the Home Depot on Caledonia Road south of Eglinton Avenue where he was observed entering and purchasing a quantity of materials. SONNE was then observed leaving this Home Depot and attending another Home Depot location on St Clair Avenue West west of Keele Street. SONNE was again observed entering and purchasing a quantity of items. Byron SONNE was then observed returning to his home address at 1:37pm. Byron SONNE was observed gardening with an unknown female at 2:30pm. At 2:45pm the surveillance crew was relieved. Byron SONNE was not observed leaving his residence for the remainder of the evening and surveillance was concluded.

GROUND TO BELIEVE THAT THE ITEMS SEIZED WILL AFFORD EVIDENCE OF THE STATED OFFENCES:

Items relating to Co-conspirator's

For the operation Mr. SONNE is planning which includes the destruction and damage of municipal fences and telecommunications he requires a network of people to assist him. Mr. SONNE has been "tweeting" these people enlisting their assistance and advising them on how to destroy the said property allowing for violent confrontations that otherwise would not occur. In addition he is putting the safety of officers and the public in grave danger. Mr. SONNE has been using his computer system and phones to pass messages on to his co-conspirators. Surveillance has confirmed that he is at home while these tweets are occurring. Mr. SONNE's computer(s) and phone will provide valuable information in regards to detailed information on his plans and his fellow co-conspirators.

This is essential evidence to obtain not only for the prosecution of this individual but to gain evidence in regards to the person(s) he is conspiring

with. In addition this information will prevent imminent injuries or worse should his plan come together.

Records of the names and phone numbers of dealers whether associates, or friends are stored through photographs, film, written data, electro-magnetic data storage units (computers, pager, cellular phones), written telephone documents, telephone bill records and/or personal address or phone books.

I believe there is compelling and corroborating evidence that Byron SONNE will have these items in his residence located at 58 Elderwood Drive, in the City of Toronto.

Items linked to ownership and living arrangements of 58 Elderwood Drive, in the City of Toronto, Ontario.

Documents pertaining to living arrangement and/or ownership of a house is important evidence in relation to the charge of Conspiracy to commit an indictable offence.

These records would allow investigator's to gain valuable evidence in relation to proceeds of crime and identify, specifically, the people responsible for the residence or rental units.

These records are retained through files, reports, notes, copies, memoranda, correspondence, applications, agreements, information, which can be stored electronically, or on paper.

I believe there is compelling and corroborating evidence that Byron SONNE will have these items in his residence located at 58 Elderwood Drive, in the City of Toronto, Ontario.

Items to be used for the Destruction of Public Property

Mr. SONNE has vividly supplied information on police videos and described how to damage and destroy them. These videos are in place only for the purpose of the G20 summit and are put in place to protect the delegates attending Toronto, the public and the police.

I believe that Mr. SONNE has specific plans on destroying these cameras or disabling them as he has discussed on Twitter. He has gone as far as to post photographs depicting the location of these cameras.

I believe these plans will be located at Mr. SONNE's house along with the instruments he plans on using to disrupt or destroy these video cameras.

Mr. SONNE has described on his Twitter page how he has items at his home that can be used to destroy fencing that was put in place to protect the public, the police and the delegates. I believe this statement to be true.

I believe there is compelling and corroborating evidence that Byron SONNE will have these items in his residence located at 58 Elderwood Drive, in the City of Toronto, Ontario.

Items related to the interruption of communications

Byron SONNE has posted photographs on his Flickr web page depicting a wave guide. This is used to send out sound waves that disrupts communication channels and can destroy them permanently.

It is essential for police and security to be able to communicate not only for the protection themselves but for the protection of the public and the delegates attending Toronto.

I believe there is compelling and corroborating evidence that Byron SONNE will have the wave guide at his home address of 58 Elderwood Drive, in the City of Toronto, Ontario. He openly talks about the disruption of communication and video devices and posts a photograph of it on his Flickr page.

CONCLUSION:

It is respectfully requested that this search warrant application be granted to seize the evidence in relation to the named offences and successfully prosecute the offender in this matter.

This is a matter of public and officer safety. The weapon(s) described in this affidavit is potentially capable of causing grievous bodily harm and even death.

The pictures of the surveillance cameras and the fence line speak to the mind set of Byron SONNE. This is showing the stages of planning out his attack. The knowledge of the locations of such surveillance cameras can be used to avoid being captured on tape thus eluding law enforcement.

The photos of the structures will likely become the targets of any property damage Byron SONNE plans on inflicting.

I request this information to be sealed to protect
the integrity of ongoing security operations.
OF 7693

Appendix “D”

A screenshot of a Flickr photostream titled "Flickr: toronto_goa's Photostream". The page shows five photos by user "toronto_goa".

- Two of Toronto's Finest**: A black and white photo of two people in dark clothing standing outdoors.
- Fences stacked by American Embassy**: A black and white photo of a stack of wooden fence panels.
- Two more of Toronto's Finest**: Another black and white photo of two people in dark clothing.
- Stationary Bacon**: A black and white photo of a person standing next to a large metal structure.
- Bacon on Wheels**: A black and white photo of two people standing near a food cart.

Each photo has a "rights reserved" watermark and was updated on Jun 20, 2010.
